Certified Since June 25, 2020

Credit Cards, EFT, ACH
Accepted

JW Machine is a minority owned, small business, with over 30 years experience as a trusted supplier to the DoD market and historical quality/delivery rating average of 98% , providing complex, precision CNC machined, custom BTP mechanical components.

Certified AS9100 D / ISO 9001:2015 since June 25,2020

Custom Manufacturing Services

- Climate controlled manufacturing facility
- Advanced tool technology in CNC machining
- Cost reducing multi-axis, multi-tasking Mazak CNC machines
- Part accuracy insurance with Done-in-One set-ups
- Precision Mazak CNC machines handle long runs maintaining tolerances to $\pm .0001$ throughout the run.
- Automated CMM inspection technology
- Industrial/Mechanical Quality Assurance and ERP system insures traceability throughout the entire P.O. cycle.
- Total integrated manufacturing solutions for finished components
- Design for manufacturability (DFM) assistance
- Professional mechanical engineering and design assistance
- Cost reduction production for lean manufacturing
- Fast, accurate response throughout program life cycle from product development through high rate production.
- Traceability throughout entire production and delivery cycle
- Expertise with most materials, including exotics and plastics
- Equipment Calibration Inspection meets ISO 10012-2003

***“The Value of Readiness
and Delivery of Excellence!”***

“We started sourcing work to JW Machine back in 2008. We found their quality level to be above our current suppliers and their prices to be very competitive. Because we saw improved quality and improved cost, we redirected a large portion of our outsourced work to JW Machine. JW Machine has consistently met our expectations and we consider them a partner in our business growth.” Eric Hochstetler, President – MTC Engineering

PAST PERFORMANCE

Northrop Grumman Corporation

Supplier to the following divisions and programs:

- ◆ Laser Systems, Apopka, FL
- ◆ Electronic Systems, Rolling Hills, IL
- ◆ Information Systems, Falls Church, VA
- ◆ Space & Mission Systems Corp, Herndon, VA
- ◆ NAVSEA Contract #N00178-04-D-4091-0005

**Under the Advanced Technology Support Program (ATSP)
we provided manufactured components for:**

- ◆ Large Aircraft Infrared Countermeasure (LAIRCM) system
- ◆ C4ISR solutions
- ◆ Electro-optical (EO) targeting systems
- ◆ AN/PED-1 Lightweight Laser Designator Rangefinder (LLDR)
- ◆ Special Operation Forces Laser Acquisition Marker (SOFLAM)
- ◆ Special Operation Forces Laser Rangefinder Designator (SOFLRD)
- ◆ OSR Program
- ◆ NAVSEA/Seaport contract manufacturing support on task orders

SAIC/LEIDOS

Supplier for the following programs:

- ◆ Warfighter FOCUS
- ◆ AFCTC-3 HARDWARE
- ◆ Non-rated Crew Member Manned Module (NCM3) Systems
- ◆ Non-rated Crew Member Manned Module (NCM3) LRIP
- ◆ US Army CERDEC PITD C4ISR Systems Prototyping Integration Testing Support.
- ◆ Common Driver Trainer W900KK-18-R-0037 – sub-contract

Other Prime and Sub-prime customers:

- ◆ Bombardier
- ◆ Cues, Inc.
- ◆ HDT Exp.Sys. Inc.
- ◆ Jacobs Engineering
- ◆ Kratos
- ◆ L3Harris
- ◆ Lockheed Martin
- ◆ Pentair
- ◆ Stenner Pumps
- ◆ Syneo
- ◆ Technetics
